DEFENSE AND SECURITY

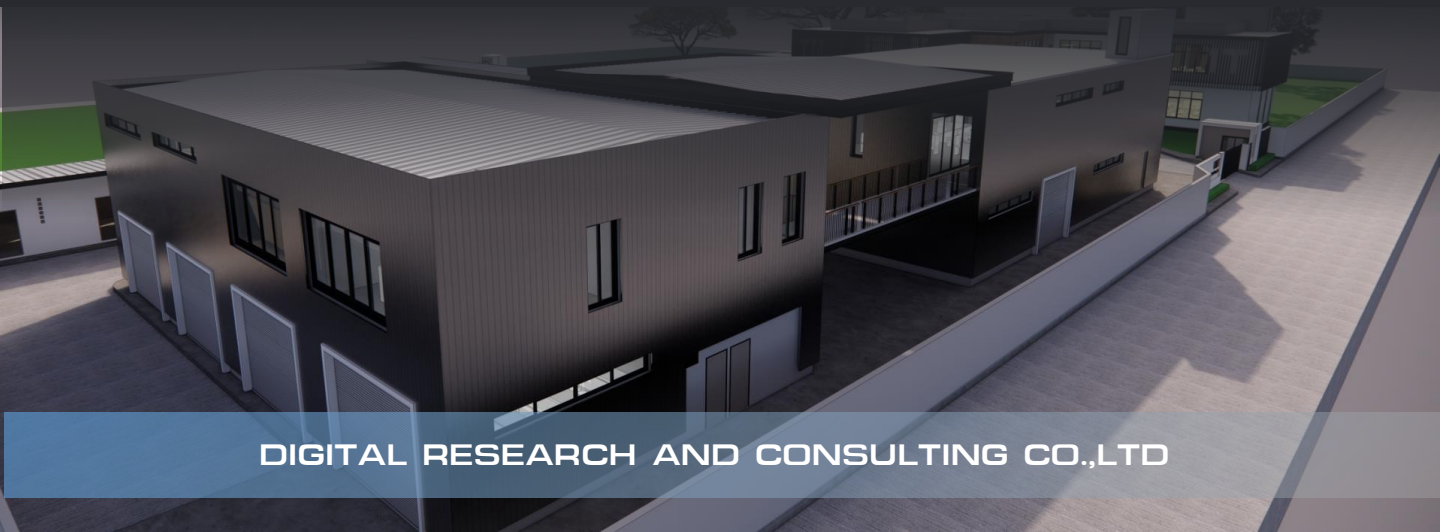

ABOUT US

Digital Research and Consulting Co., Ltd (DRC) has more than 25 years' experience in telecommunication industry. Our core capabilities include engineering, manufacturing, system integration, technology development. We provide expert communication solutions to clients from governmental organizations to private companies. The company supplies a comprehensive range of Security & Defense and Communication Technologies. With the aim to save lives wherever we are, products are offered from jammers, military surveillance equipment and disaster management systems

OUR HISTORY

We are 100% Thai company founded in 1995 by a group of renowned management team who had over 20 year-experience in Thailand telecommunication business with paid-up capital of 50 million baht.

Now we employed over than 100 skilled employees. Today DRC is one of the prominent and most successful companies in Thailand, having a solid base of highly educated engineers with valuable (technical and commercial) knowledge in dealing with local and international business community.

DIGITAL RESEARCH AND CONSULTING CO.,LTD

DRC'S MISSION

Our mission is aimed to be a leading manufacturer in defense and security products. Our commitment is in highest quality products and services

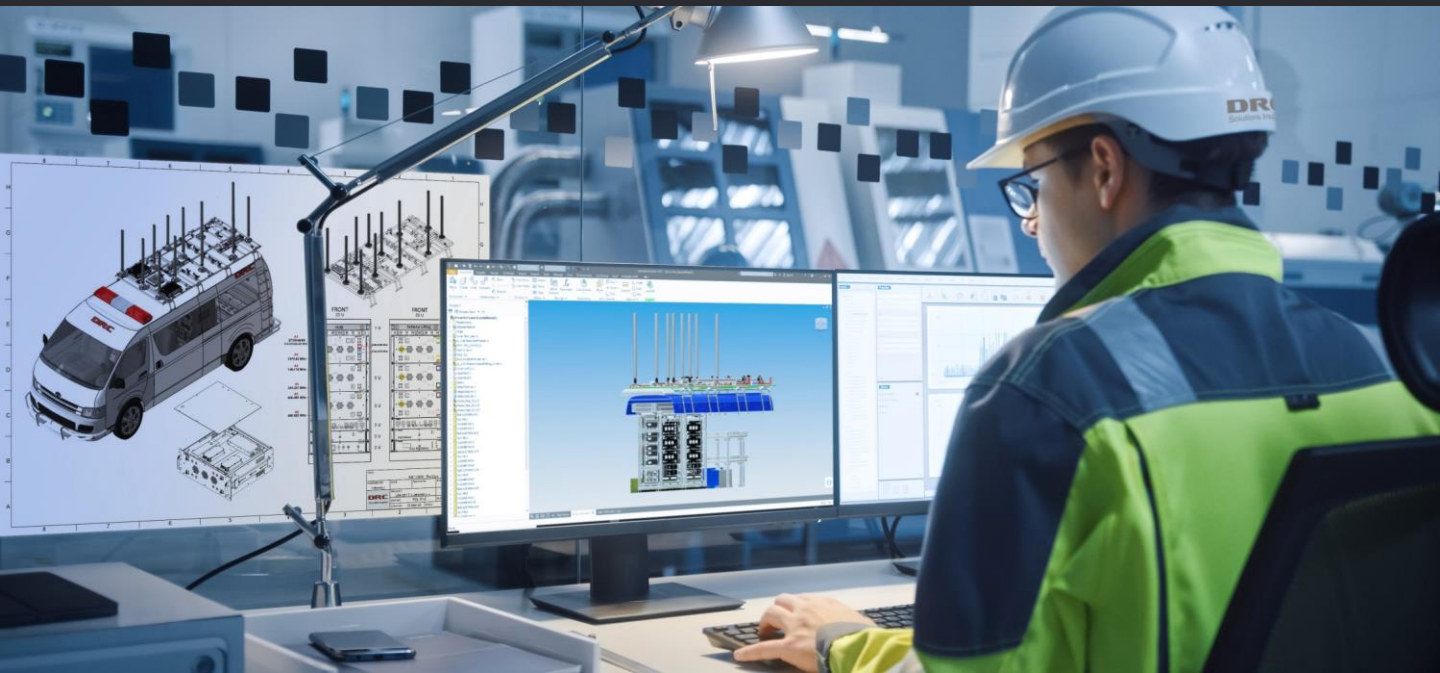

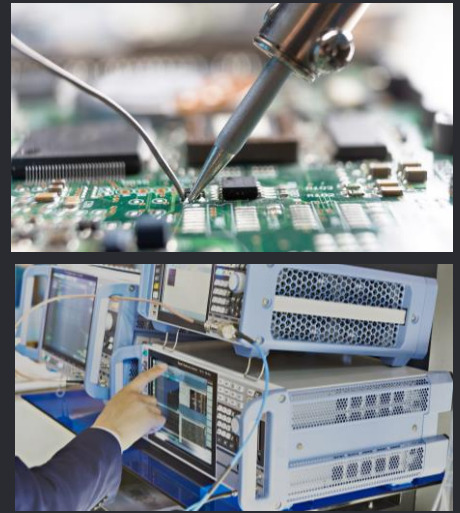

KEY TO SUCCESS

DRC successfully earned trust of clients, especially in truly innovation solutions with high quality products. We take pride in working closely with our clients to provide integrated solutions and products for private, commercial and governmental agencies. We work collaboratively with our clients to ensure they are able to attain the necessary solution to solve their challenge. Our dedication and hard work to solve emerged incidents in the most difficult environmental conditions and security hazards is becoming the key of our success.

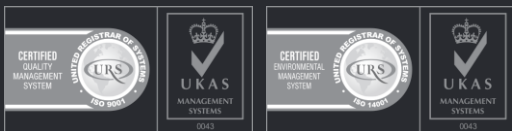

MANUFACTURING

Our facilities are vertically integrated, enabling extensive in-house manufacturing capabilities to achieve our customers' requirements. Our success in meeting stringent customer requirements to demanding schedules is due, in large part, to our extensive in-house manufacturing capabilities. Our design and development team is committed to providing the best analytical techniques available to address our customers' concerns and we offer comprehensive engineering consulting in a variety of different areas.

QUALITY CERTIFICATION

DRC commits to total quality as our path to excellence in achieving world-class status as Thailand premier system integrator. We are a Total Quality Company continuously improving all work processes and employee skills in satisfying internal and external customer requirements. The foundation for achieving our goals and objectives is the deployment of ISO 9001:2015 and ISO 14001:2015

Our products are designed to meet applicable EN standard. Our products conform to product testing regulations of EN standards such as EN-50083-2 : 2001, EN-61643-21 2001, EN-60947-1 2004. CE Marking is our pride to assure product quality conforming to international standard.
